

MCPA

MCPA Module

Hitachi's 190 Watt Multi-Carrier Power Amplifier (MCPA) module is available in 850MHz and 1900MHz versions. The Hitachi MCPA is technology-transparent and can be used in multiple wireless network technology environments, including TDMA, GSM, EDGE, UMTS, HSDPA, and CDMA2000. The MCPA module is the core component in Hitachi's MCPA system.

Features

- 190 Watt output power
- Works with all technology modulations
- Frequency flexibility: 850MHz only, 1900MHz only or combined 850 and 1900MHz.
- Low IMD: -65dBc (Typical)
- Fans are hot-swappable
- Little or no maintenance required
- FCC Part 15, 21 and 24 type accepted
- Meets UL 60950 safety standard
- ETL, UL certified
